23 Sep. 2015

# 1. Contribution to Thailand

Worldwide transition of production unit of passenger car  
2012 to 2014

## **TASK① Revitalize economy in Thailand**

While China shows stable growth in production unit, Thailand experiences stagnation partly due to its sluggish economy.

## **TASK② Address global warming**

The rapid spread of gas vehicle in China also contribute to the environmental deterioration. Unlike gas vehicle, our EV produces no CO<sub>2</sub>.

OTAGAI

# 1. Contribution to Thailand

**How : Leading Thailand to the Asian EV hub with Eco-friendly compact EV !**
