1. Contribution to Thailand

Safe relief of a food is a crisis by global scale!

The cause is a human desire more than necessary.

Present Earth

More than enough is too much !

It's returned to the original environment.

It's returned to natural providence!

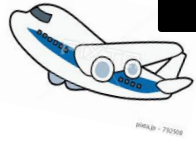

Earth of safe relief

Global health is directly connected with human health.

Human life becomes dangerous because present-day agriculture ignores natural providence.

CO₂

dioxin

Ozonic destruction

Sun Light

Damage from cold weather, torrential downpour and drought

Acid rain

Harmful air and water

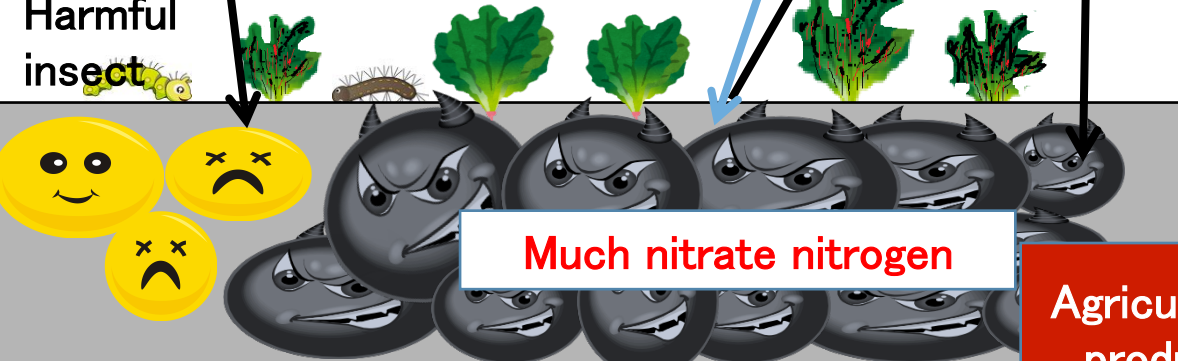

Usual Stress

PM2.5

Harmful vegetables

Harmful insect

Much nitrate nitrogen

Agricultural produce grown in sick ground

Microorganism decrease →
Settle bacterial grave → Replant failure

Negative circulation

Harmful vegetables

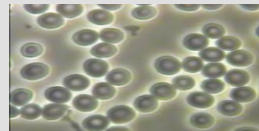

Melt, Depression is early, With bitterness, It's lack of nutrition, A cell is sick, Lack of power

The deformity of the human body.
Frequent occurrence of cranial neuropathy.
1 person for 2 people is cancer.
1 person for 4 people is diabetes.

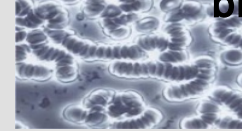

20 years before

Healthy

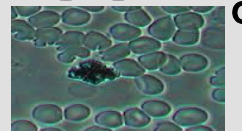

10 years before

Soiled blood

Present

Disease cell

The accumulation which is contaminant in the interior of the body. It influences blood, a brain and an organ.

Cancer, diabetes, brain disease, arteriosclerosis and high blood pressure, Autonomic imbalance, atopy, allergy and manic-depressive insanity

**cultivation that utilized providence of nature
brings true relief security**

CO₂

dioxin
Ozonic destruction

Sun Light

Damage from cold weather,
torrential downpour and drought

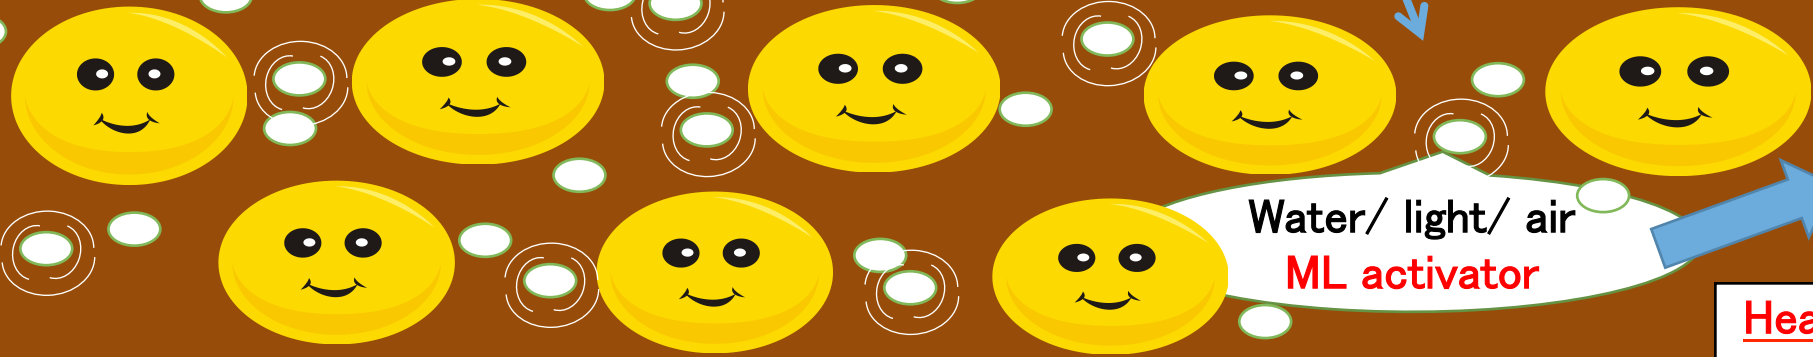

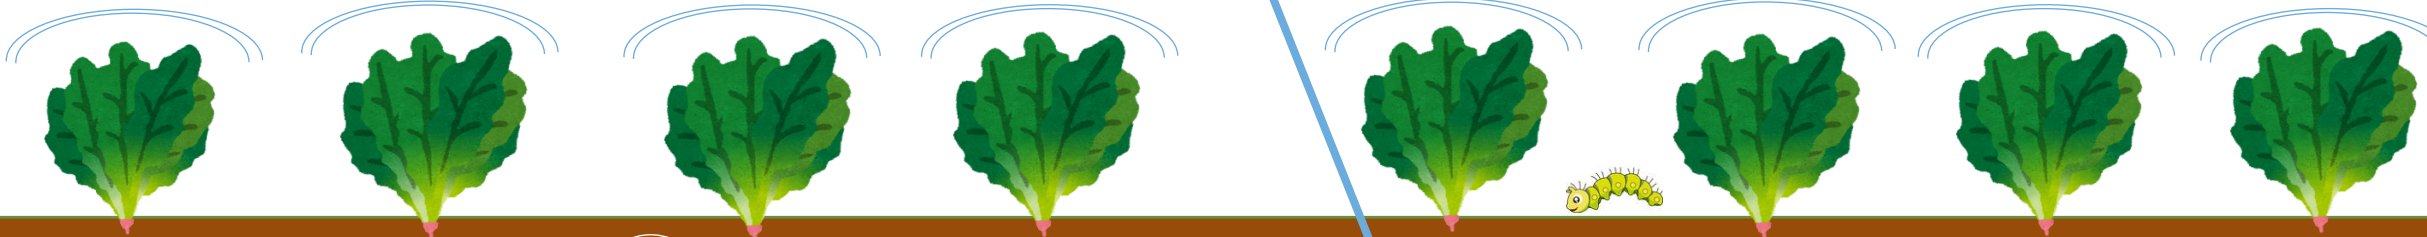

Acid rain

Coating effect

Healthy vegetables

Water/ light/ air
ML activator

Decreasing nitrate nitrogen

Healthy vegetables
Relief, security, fresh, delicious
Mineral nutrient richness,
healthy cell

Aboriginality bacteria breeding → Creature increase in the underground

Positive circulation

→ The healthy soil

2. Selling point

It is powerful and shines beautifully and lives a life happily!

~ Three elements of the beauty ~

Healthy Beauty

We should continue activating
60 trillion cells given from a
parent!

Clothes, Meal, House,
Medicine, Oneself

Natural Beauty

Water, air, soil
We should obey a law
of nature!

Agriculture, Domestic
animal, Fishery, Forestry,
Flower, Refuse disposal

Intellectual Beauty

We should make use of
knowledge, information,
wisdom and do a life study
for growth of the souls!

Knowledge, Morality
Courtesy, Manners

Change of the
consciousness

For a global
environment

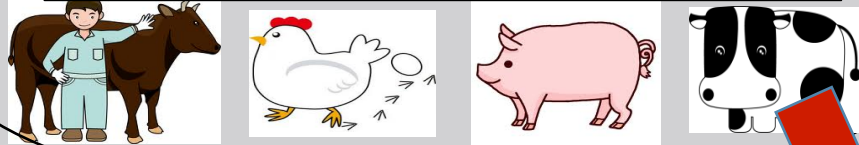

Construction of the circulation system for the reliable security

Association

Large-scale cultivation of the herb kind plant

High quality meat, egg, milk

Feces

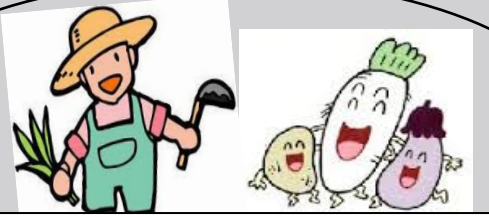

Produces full ripeness compost in 20 days (recommendation)

Feed

Activator

Activator

High quality farm products

Health food(Drink)

ISHOKUDOUGEN

Circulation of economy rich well

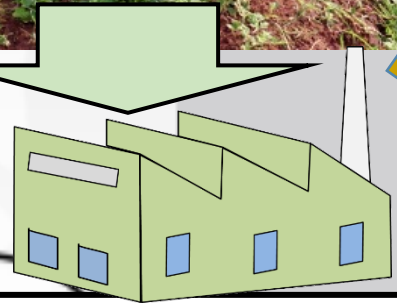

Live in health Excellent medical

Reliable safe food without the pesticide residue

Product Processing Factory
Health food, Activator
Domestic animal feed

3. Spirit of OTAGAI

- ◎ **Setting Large-scale cultivation of the herb kind plant**
- ◎ **Establishment of a product processing plant**
Healthy food, activator and livestock feed, etc
- ◎ **Circulation sale of an artifact in domestic and abroad**
- ◎ **Safe relieved farm produce and compost production consultation**

Private level

- ◎ **Making safe relieved standard in a food Measurement of the remains agricultural chemicals amount and nitrate nitrogen**

Government level

The merit of the herb kind plant (after processing)

Herb kind plant

Health food(drink) ;

- ① An accumulated poison is detoxified in the interior of the body
- ② It's improved in the constitution for which it's difficult to be taken ill by the immunity power improvement.

Activator ;

- ① Aboriginality bacteria breeding and creature increase in the underground
- ② Reducing the remains agricultural chemicals amount and nitrate nitrogen
- ③ Increase of sweetness and gusto of farm products
- ④ Become strong in a bug and inferior environment

Feed ;

- ① Good bacterial multiplication in the body of cattle
- ② An accumulated poison is detoxified in the interior of the body
- ③ Improvement of the quality of the feces for good compost production

Production of the herb kind plant and processing business

New Business

Agricultural section

Processing section

Annual production; 700,000t

Annual scale of sales(Profit rate);

herb kind plant
Double cropping large-scale cultivation
Planted acreage; 10ha
Annual production; 700,000t

Activator

Feed

Health food (Drink)

\$ 1M (88%)

\$ 5.5M (89%)

The first year's investment in plant and equipment 0.8M \$
Dryer, Muller and harvest machine etc.
(Without site borrowing and the labor expense)
